Ms. Horejda,

Re: Viterra IT Outsourcing

Further to your letter of July 15, 2009, this is to advise that GSU proposes to meet pursuant to s. 24.1 of Article 24 of the collective agreement covering employees in the Regina head office of the company and this is also notice to commence collective bargaining pursuant to s. 24.3 of Article 24 of said collective agreement.

With respect to dates for meetings, I have cleared my calendar and I can offer you any combination of consecutive dates beginning with Monday, July 20 to Friday, August 14, but given the urgency of the situation GSU prefers meeting in the first half of the suggested timeframe.

In addition to answers to the questions GSU has already raised with you, I would appreciate it if you would provide the following information.

1. I understand that the company has offered so called new management analyst positions to 14 bargaining unit employees and I understand that if the subject employees decline said positions they will be given notice of job elimination under Article 24 of the collective agreement. Accordingly, please confirm that my understanding is accurate and please provide the job description(s) for the proposed new management analyst positions.

As previously indicated to you, GSU disputes exclusion of the so called new management analyst positions from the bargaining unit.

2. In addition to the above request for the job description(s), please provide GSU with a list of the employees who have been offered said positions and indicate whether they have accepted or declined the offer of same.

Ms. Jolene Horejda
July 17, 2009

3. Please advise whether employees who accept the proposed "management analyst" positions will have the right to revert to their rights under Article 24 of the collective agreement.
4. In his July 15 email broadcast to employees Viterra's CEO Mayo Schmidt said, inter alia, "...Project management, architecture and business analysis will be among the services that Viterra employees will continue to perform."

In media interviews, the Vice President of IT, Mr. Mike Brooks was reported a saying that there would continue to be 70 or so information technology positions at the Regina head office of the company.

Please provide the job descriptions, related job titles, and pay rates of the remaining IT positions encompassed by Messrs. Schmidt's and Brooks' remarks.

5. In addition to the above requested information, please provide a complete current list of jobs with incumbents or advertised as vacancies that the company considers being outside the scope of Regina head office bargaining unit.
6. In his July 15 email broadcast to employees Mr. Schmidt said, "Strategically we need the right people in the right places to complement our position as a major ingredients supplier worldwide." I would appreciate it if you would clarify Mr. Schmidt's remarks. Specifically, was he saying the current IT employees don't have the necessary skills to fill the company's IT requirements (an assessment GSU and the employees would certainly dispute)?

I look forward to your early confirmation of bargaining/meeting dates and receipt of the requested information.

Sincerely,
